Saint Louis University

**2018-2021**

MS in Information  
Technology

Saint Louis University

**2022-2023**

Startup Incubator Program

Asian Institute of Management

## PROFILE INFO

Experienced Co-Founder with a demonstrated history of working in the information technology and services industry. Skilled in Technical Support, Management, Team Leadership, SQL, and Customer Service. Strong business development professional with a Master's degree focused in Information Technology.

## WORK EXPERIENCE

### Full Stack Web Developer

**2018-2020**

I developed applications for property management division of a real-state company, including financial management and inventory management to help with automation.

### Chief Technology Officer/ Co-Founder

**2021 - present**

I've been in charge of all the technical development processes from planning to deployment. Our start-up company developed a web-based property management tool to assist landlords, property managers, and real-state professional in automating tedious and repetitive tasks of managing property.

### Front-end Web Developer

**2022 - 2023**

I was in charge of the converting the designs into an HTML page with its CSS and JS. In addition, since we were following the microservices architecture I created api calls to communicate to the backend.

## MY SKILLS & EXPERTISE
